For the cure of Hepatites or Liver Complaint, Dyspepsia and Sick Head-Ache, SYMPTOMS OF A DISEASED LIVER,-Pain in the right side, under the edge of the ribs, increased on pressure; sometimes the pain is in the left side, sometimes the pain is felt under the shoulder blade, it frequently extends to the top of the shoulder, and is sometimes mista ken for the rheumatism in the right arm. The stomach is affected with loss of appetite and sickness; the bowels, in general are costive, sometimes alternating with lax, the head is troubled with pain accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility he is easily startled, his feet are cold or burning and he complains of a prickly sensation of the C.
